T-KH(RUFF) Coverage of North Vietnam and South China (RCI-T-76-61)

1. The meeting was called on short notice at the request of the State Department which wished to present an alternate proposal to U-2 coverage of North Vietnam and South China (see COMOR-D-2/5). In essence the proposal was that these areas be added to COMOR's highest priority list and that they be included in the late July KH mission (State's memo issued for reference as COMOR-D-2/6). The State Department requested that there be preliminary discussion of this subject at this meeting (which took place) and be considered at the next meeting which is scheduled for Monday, 10 July, which would provide an opportunity for the members to discuss the matter in their respective agencies.

FLASH Reports on T-KH (RUFF) Readout

2. Colonel Winterbottom expressed regret that the ICBM and MRBM findings in 9017 were delayed for issuance until the second OAK report issued on Tuesday when some of this data had already been identified on Sunday. After this matter was discussed it was agreed to reach a conclusion at the next meeting after there had been some time for reflection.

Revised Highest Priority Requirements for KH Readout

3. The Chairman reported that [] working group had prepared a revision of the priority requirements for guidance of the PIs in handling the next KH mission which would reach them on Monday, 10 July. A copy has already been forwarded to [] so that NPIC could move ahead on its preparations since these take some time, pending the approval of the COMOR which the Chairman said he would like to obtain on 10 July.
